Index of 2000 Feature Articles

By Author

Ackerman, Mark Y.
Design Guidelines for Combustion Air Systems. P. 44. May.

Asiedu, Yaw
Sizing and Balancing Air Duct Systems. P. 24. December.

Avery, Gil
Selecting Valves and Piping Coils. P. 23. April.

Bakenhus, Byron
Ice Storage Project. P. 64. May.

Besant, Robert W.
Air-to-Air Energy Recovery. P. 31. May.
Sizing and Balancing Air Duct Systems. P. 24. December.

Blazewicz, Bernard
Designing HVAC for Pharmaceutical Research Facilities. P. 45. October.

Bockmiller, Fred R.
Primary Chilled Water Loop Retrofit. P. 60. December.

Brager, Gail Schiller
A Standard for Natural Ventilation. P. 21. October.

Brambley, Michael R.
DDC and the Web. P. 38. December.

Branson, David J.
DDC and the Web. P. 38. December.

Braun, Jim
Smart Maintenance for Rooftop Units. P. 41. November.

Breuker, Mark
Smart Maintenance for Rooftop Units. P. 41. November.

Brodrick, James R.
Conquering Corrosion: Developing New Alloys for Furnaces. P. 29. April.

Brown, Will K.
Practical Guide: Operation and Maintenance of Evaporative Coolers. P. 27. July.

Chassin, David P.
DDC and the Web. P. 38. December.

Clark, Ray J.
Inch-Pound vs. Metric: Can the U.S. Stay Competitive? P. 37. January.

Crawley, Drury B.
Energy Plus: Energy Simulation Program. P. 49. April.

Crowther, Hugh
Installing Absorption Chillers. P. 41. July.

Dale, J. Douglas
Design Guidelines for Combustion Air Systems. P. 44. May.

de Dear, Richard
A Standard for Natural Ventilation. P. 21. October.

de Larminat, Paul
Expanding the Use of Ammonia. P. 35. March.

Dilorio, Gil
Inch-Pound vs. Metric: Can the U.S. Stay Competitive? P. 37. January.

Eads, Lowry G.
Practical Guide:Thermography. P. 51. March.

Elovitz, Kenneth M.
Practical Guide: Damper Sizing Using Damper Authority. P. 37. April.

Epperly, Richard A.
Practical Guide: Thermography. P. 51. March.

Foarde, Karin K.
Efficacy of Antimicrobial Filter Treatments. P. 52. December.

Fiorino, Donald P.
Reducing Steam Costs: Six Conservation and Efficiency Measures. P. 31. February.

Fisher, David
BACnet® at Work: Reexamining Our Assumptions. P. 34. July.

Fleming, N. Patrick
Design Guidelines for Combustion Air Systems. P. 44. May.

Geary, David F.
New Guidelines on Legionella. *P. 44. September.*

Gowri, Krishnan
DDC and the Web. P. 38. December.

Groll, Eckhard A.
Saving Energy in Refrigerated Warehouses. P. 35. August.

Guckelberger, Dave
Practical Guide: Controlling Noise from Large Rooftop Units. P. 55. May.

Hanley, James T.
Efficacy of Antimicrobial Filter Treatments. P. 52. December.

Harriman, Lewis G. III
Improving Humidity Control for Commercial Buildings. P. 24. November.

Hegberg, Mark C.
Control Valve Selection for Hydronic Systems. P. 33. November.

Henderson, David R.
Practical Guide: Lubrication and Tribology. P. 52. February.

Hens, Hugo L.S.C.
Minimizing Fungal Defacement. P. 30. October.

Hiller, Carl C.
Determining Equipment Service Life. P. 48. August.

Hosni, M.H.
Heat Gain from Office Equipment. P. 33. June.

Howley, Joseph G. Jr.
New Standard 90.1, The. P. 31. March.

Hyman, Lucas B.
Primary Chilled Water Loop Retrofit. P. 60. December.

Jarnagin, Ron
New Standard 90.1, The. P. 31. March.

Johnson, Michael S. Jr
Vibration Tests for Bearing Wear. P. 52. October.

Johnson, David Wayne
Cooling System for Space Shuttle Launch Pad. P. 48. November.

Kammers, Brian
DDC and the Web. P. 38. December.

Kavanaugh, Steve
Fan Demand and Energy: Three Air-Distribution Systems. P. 47. June.

Kittler, Reinhold
Improving Humidity Control for Commercial Buildings. P. 24. November.

Kruse, Horst
Refrigerant Use in Europe. P. 16. September.

Larson, Michael K.
Geothermal System for Skilled Nursing Facility. P. 57. June.

Lawrie, Linda K.
Energy Plus: Energy Simulation Program. P. 49. April.

Leung, Luke
Inch-Pound vs. Metric: Can the U.S. Stay Competitive? P. 37. January.

Lilly, Jerry G.
Noise in the Classroom: Understanding the Problem. P. 21. February.

Lizardos, Evans
Practical Guide: Damper Sizing Using Damper Authority. P. 37. April.

Lstiburek, Joseph
Improving Humidity Control for Commercial Buildings. P. 24. November.

Manczyk, Henry
Energy Efficient O&M for Airport. P. 43. July.

Mathaudhu, Sukhdev S.
Evaporative Cooling in California. P. 81. October.

McBride, Merle
New Standard 90.1, The. P. 31. March.

Meckler, Milton
Apollo 11 Moon Rocks Revisited. P. 30. January.

Moore, Alex
Conquering Corrosion: Developing New Alloys for Furnaces. P. 29. April.

Moult, Rob
Fundamentals of DDC. P. 19. November.

Olesen,Bjarne W.
Guidelines for Comfort. P. 41. August.

Paarporn, Somchai
Local Pumping System. P. 26. September.

Pedersen, Curtis O.
Energy Plus: Energy Simulation Program. P. 49. April.

Rishel, James B. (Burt)
40 Years of Fiddling with Pumps. P. 43. March.

Robinson, Keith D.
Rating Air Mixing Equipment. P. 63. February.

Rosenbaum, Marc
Solar Energy House. P. 52. September.

Rossi, Todd
Smart Maintenance for Rooftop Units. P. 41. November.

Schwedler, Mick
New Standard 90.1, The. P. 31. March.

Shaw, C.Y.
Ventilation for Workstations: Evaluating Seven Diffuser Layouts. P. 52. January.

Simonson, Carey J.
Air-to-Air Energy Recovery. P. 31. May.

Skalko, Stephen V.
New Standard 90.1, The. P. 31. March.

Snell, John R. Jr.
Practical Guide: Thermography. P. 51. March.

Stegmann, Rudy
Practical Guide to Low Temperature Refrigeration. P. 42. January.

Stratton, John H.
Practical Guide: Metal Duct Selection and Application. P. 24. June.

Taylor, Steven T.
Comparing Economizer Relief Systems. P. 33. September.

Van Boerum, J. Howard
Olympic Bobsled and Luge Track. P. 58. August.

Veeck, Alan C.
Efficacy of Antimicrobial Filter Treatments. P. 52. December.

Wilkins, Christopher
Heat Gain from Office Equipment. P. 33. June.

Wilkinson, Ronald J.
Establishing Commissioning Fees. P. 41. February.

Wilson, David J.
Design Guidelines for Combustion Air Systems. P. 44. May.

Winkelmann, Frederick C.
Energy Plus: Energy Simulation Program. P. 49. April.

Wolf, James E.
Engineering Tomorrow's Quality of Life: President's Inaugural Address. P. 31. August.

Zhang, Jianyi
Saving Energy in Refrigerated Warehouses. P. 35. August.

By Subject

Air Conditioning
Fan Demand and Energy: Three Air-Distribution Systems. Steve Kavanaugh. P. 47. June.

Air-Handling Units
Smart Maintenance for Rooftop Units. Mark Breuker, Todd Rossi, Jim Braun. P. 41. November.

BACnet®
BACnet® at Work: Reexamining Our Assumptions. David Fisher. P. 34. July.

Building Management
BACnet® at Work: Reexamining Our Assumptions. David Fisher. P. 34. July.

Fundamentals of DDC. Rob Moult. P. 19. November.

DDC and the Web. Michael R. Brambley, David P. Chassin, Krishnan Gowri, Brian Kammers, David J. Branson. P. 38. December.

Calculation
Determining Equipment Service Life. Carl C. Hiller. P. 48. August.

Sizing and Balancing Air Duct Systems. Robert W. Besant, Yaw Asiedu, P. 24. December.

Chillers
Cooling System for Space Shuttle Launch Pad. David Wayne Johnson. P. 48. November.

Installing Absorption Chillers. Hugh Crowther. P. 41. July.

Primary Chilled Water Loop Retrofit. Lucas B. Hyman, Fred R. Bockmiller. P. 60. December.

Commissioning
Establishing Commissioning Fees. Ronald J. Wilkinson. P. 41. February.

Controls
BACnet® at Work: Reexamining Our Assumptions. David Fisher. P. 34. July.

DDC and the Web. Michael R. Brambley, David P. Chassin, Krishnan Gowri, Brian Kammers, David J. Branson. P. 38. December.

Control Valve Selection for Hydronic Systems. Mark C. Hegberg. P. 33. November.

Fundamentals of DDC. Rob Moult. P. 19. November.

Corrosion
Conquering Corrosion: Developing New Alloys for Furnaces. James R. Brodrick, Alex Moore. P. 29. April.

Dampers
Comparing Economizer Relief Systems. Steven T. Taylor. P. 33. September.

Practical Guide: Damper Sizing Using Damper Authority. Evans Lizardos, Kenneth M. Elovitz. P. 37. April.

Dehumidification
Minimizing Fungal Defacement. Hugo L.S.C. Hens. P. 30. October.

Ducts
Comparing Economizer Relief Systems. Steven T. Taylor. P. 33. September.

Practical Guide: Metal Duct Selection and Application. John H. Stratton. P. 24. June.

Sizing and Balancing Air Duct Systems. Robert W. Besant, Yaw Asiedu, P. 24. December.

Energy Conservation
Energy Efficient O&M for Airport. Henry Manczyk. P. 43. July.

Energy Plus: Energy Simulation Program. Drury B. Crawley, Linda K. Lawrie, Curtis O. Pedersen, Frederick C. Winkelmann. P. 49. April.

Evaporative Cooling in California. Sukhdev S. Mathaudhu. P. 81. October.

Geothermal System for Skilled Nursing Facility. Michael K. Larson. P. 57. June.

Heat Gain from Office Equipment. Christopher Wilkins, M.H. Hosni. P. 33. June.

New Standard 90.1, The. Ron Jarnagin, Merle McBride, Stephen V. Skalko, Mick Schwedler, Joseph G. Howley Jr. P. 31. March.

Reducing Steam Costs: Six Conservation and Efficiency Measures. Donald P. Fiorino. P. 31. February.

Saving Energy in Refrigerated Warehouses. Jianyi Zhang, Eckhard A. Groll. P. 35. August.

Solar Energy House. Marc Rosenbaum. P. 52. September.

Evaporative Cooling
Evaporative Cooling in California. Sukhdev S. Mathaudhu. P. 81. October.

Practical Guide: Operation and Maintenance of Evaporative Coolers. Will K. Brown. P. 27. July.

Fans
Comparing Economizer Relief Systems. Steven T. Taylor. P. 33. September.

Filters
Efficacy of Antimicrobial Filter Treatments. Karin K. Foarde, James T. Hanley, Alan C. Veeck. P. 52. December.

Geothermal
Geothermal System for Skilled Nursing Facility. Michael K. Larson. P. 57. June.

Heating
Fan Demand and Energy: Three Air-Distribution Systems. Steve Kavanaugh. P. 47. June.

Humidity
Improving Humidity Control for Commercial Buildings. Lewis G. Harriman III, Joseph Lstiburek, Reinhold Kittler. P. 24. November.

Minimizing Fungal Defacement. Hugo L.S.C. Hens. P. 30. October.

Laboratories
Apollo 11 Moon Rocks Revisited. Milton Meckler. P. 30. January.

Legionella
New Guidelines on Legionella. *David F. Geary. P. 44. September.*

Metrics
Inch-Pound vs. Metric: Can the U.S. Stay Competitive? Luke Leung, Gil Dilorio, Ray J. Clark. P. 37. January.

Motors
Vibration Tests for Bearing Wear. Michael S. Johnson Jr. P. 52. October.

Noise
Noise in the Classroom: Understanding the Problem. Jerry G. Lilly. P. 21. February.

Practical Guide: Controlling Noise from Large Rooftop Units. David Guckelberger. P. 55. May.

Operations and Maintenance
Determining Equipment Service Life. Carl C. Hiller. P. 48. August.

Energy Efficient O&M for Airport. Henry Manczyk. P. 43. July.

Smart Maintenance for Rooftop Units. Mark Breuker, Todd Rossi, Jim Braun. P. 41. November.

Practical Guide
Control Valve Selection for Hydronic Systems. Mark C. Hegberg. P. 41. November.

Practical Guide: Controlling Noise from Large Rooftop Units. David Guckelberger. P. 55. May.

Practical Guide: Damper Sizing Using Damper Authority. Evans Lizardos, Kenneth M. Elovitz. P. 37. April.

Practical Guide: Lubrication and Tribology. David R. Henderson. P. 52. February.

Practical Guide: Metal Duct Selection and Application. John H. Stratton. P. 24. June.

Practical Guide: Operation and Maintenance of Evaporative Coolers. Will K. Brown. P. 27. July.

Practical Guide: Thermography. Lowry G. Eads, Richard A. Epperly, John R. Snell Jr. P. 51. March.

Practical Guide to Low Temperature Refrigeration. Rudy Stegmann. P. 42. January.

Vibration Tests for Bearing Wear. Michael S. Johnson Jr. P. 52. October.

Pumps
40 Years of Fiddling with Pumps. James B. (Burt) Rishel. P. 43. March.

Local Pumping System. Somchai Paarporn. P. 26. September.

Refrigerants
Expanding the Use of Ammonia. Paul de Larminat. P. 35. March.

Olympic Bobsled and Luge Track. J. Howard Van Boerum. P. 58. August.

Refrigerant Use in Europe. Horst Kruse. P. 16. September.

Refrigeration
Expanding the Use of Ammonia. Paul de Larminat. P. 35. March.

Olympic Bobsled and Luge Track. J. Howard Van Boerum. P. 58. August.

Practical Guide to Low Temperature Refrigeration. Rudy Stegmann. P. 42. January.

Refrigerant Use in Europe. Horst Kruse. P. 16. September.

Saving Energy in Refrigerated Warehouses. Jianyi Zhang, Eckhard A. Groll. P. 35. August.

Software
Energy Plus: Energy Simulation Program. Drury B. Crawley, Linda K. Lawrie, Curtis O. Pedersen, Frederick C. Winkelmann. P. 49. April.

Standards
New Standard 90.1, The. Ron Jarnagin, Merle McBride, Stephen V. Skalko, Mick Schwedler, Joseph G. Howley Jr. P. 31. March.

Steam
Reducing Steam Costs: Six Conservation and Efficiency Measures. Donald P. Fiorino. P. 31. February.

Tech Award
Cooling System for Space Shuttle Launch Pad. David Wayne Johnson. P. 48. November.

Energy Efficient O&M for Airport. Henry Manczyk. P. 43. July.

Evaporative Cooling in California. Sukhdev S. Mathaudhu. P. 81. October.

Geothermal System for Skilled Nursing Facility. Michael K. Larson. P. 57. June.

Olympic Bobsled and Luge Track. J. Howard Van Boerum. P. 58. August.

Ice Storage Project. Byron H. Bakenhus. P. 64. May.

Solar Energy House. Marc Rosenbaum. P. 52. September.

Thermal Storage
Cooling System for Space Shuttle Launch Pad. David Wayne Johnson. P. 48. November.

Thermal Comfort
Guidelines for Comfort. Bjarne W. Olesen. P. 41. August.

Variable Volume Air Conditioning
Fan Demand and Energy: Three Air-Distribution Systems. Steve Kavanaugh. P. 47. June.

Valves
Control Valve Selection for Hydronic Systems. Mark C. Hegberg. P. 41. November.

Local Pumping System. Somchai Paarporn. P. 26. September.

Selecting Valves and Piping Coils. Gil Avery. P. 23. April.

Ventilation
Apollo 11 Moon Rocks Revisited. Milton Meckler. P. 30. January.

Fan Demand and Energy: Three Air-Distribution Systems. Steve Kavanaugh. P. 47. June.

Rating Air Mixing Equipment. Keith D. Robinson. P. 63. February.

Standard for Natural Ventilation, A. Gail Schiller Brager, Richard de Dear. P. 21. October.

Ventilation for Workstations: Evaluating Seven Diffuser Layouts. C.Y. Shaw. P. 52. January.

Water Treatment
New Guidelines on Legionella. *David F. Geary. P. 44. September.*

Weather Data
Improving Humidity Control for Commercial Buildings. Lewis G. Harriman III, Joseph Lstiburek, Reinhold Kittler. P. 24. November.

Ensure

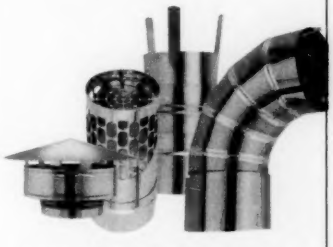
If you're specifying venting for Category II, III and IV high-efficiency appliances, make sure the name is Heat-fab.

your reputation

For more than twelve years, we've been supplying innovative venting solutions like no others. Our laser-welded Saf-T Vent® and Saf-T CI Vent® are the high-performance standards for the industry.

with ours.

Manufactured from Allegheny Ludlum's corrosion-resistant AL 29-4C® stainless steel, these venting systems fit every appliance on the market. You'll have the best experience in venting when you specify ours.



For more information or an itemized estimate, call 1-800-772-0739.
